Women in Leadership: Inspiring Positive Change!

MARCH 14-15th, 2017

Gender gap remains a scorching topic in the modern workplace, especially when it comes to leadership roles. In 2016, only 4% of S&P 500 companies were run by women.

The **Women in Leadership** event gives an overview of how different companies address this topic and what actions they are taking. Do they have positive discrimination initiatives? Special programs for women? Or on the contrary, they believe that the best way to have equality is not to have something special? Or do they not see this as a topic of concern?

We invite you to join us virtually for rich and interactive sessions with leading companies such as **Liberty Mutual and BP**. You can also attend a short session on importance & hurdles of Women in leadership by **Dr. Cécile Emery** as well as a panel discussion about this theme.
